## ***Free TEACHING ARTIST SEMINAR***

**Please join the Music Center Apprentice Artists as they share their insights and research on a variety of topics of interest to artists and teachers working in schools, in and through the arts. Each will facilitate a discussion on their topic with the group.**

General topics include: How do we foster student motivation to come from a creative place rather than a competitive one? How can issues of social justice be encouraged in a meaningful way in an arts residency? What keeps us inspired to create art and how can we share that with students to unlock their creative voice? How can the incorporation of performing arts improve reading with expression? How can we empower my students while dealing with our own ego needs to be liked and to get positive feedback?
